About Us

Vestigo Staffing is a company founded by professionals with more than 15 years of experience in the software architecture and development fields. Our technical and professional background gives us the ability to find, screen and match candidates and their skills to the right job and company, finding better resources for our clients and providing excellent opportunities for our candidates. Vestigo Staffing has a customized screening process to ensure that we find the right employee for you. We provide employment services and handle the hiring process based on the specific requirements of our customers. Your success is our success.

Services

We offer consulting, recruiting and staffing services for various industries. In particular, we specialize in finding, screening and matching quality professionals for the IT and Finance industries whether the position is for a short term placement, permanent placement or project based opportunity.
